Co-Founders of Rezt+Relax receiving the SOE Awards 2023
Mr Wilson Teh (Left) and Mr John Foo (Right)

Relax with a Lifetime Warranty for home renovations

For anxious home owners, a lifetime warranty for their renovation projects goes a long way in delivering peace of mind. Pioneered by home renovation firm Rezt+Relax Interior Design, the commitment stems from the company's belief in the quality of its work and the materials used. The warranty is supported by a SuperApp which allows customers to post details of any defects, which will then be rectified by its contractors.

Rezt+Relax also plays an active role in educating the public on home renovation. This is done through its social media channels, with over 400 YouTube and TikTok videos produced to help the public navigate renovation projects.

The company's work has been very well received by customers, whose numbers have grown to over 30,000 since it was established in 2000. Its scope has also expanded to include rebuilding and reconstruction, and providing additions and alterations to existing homes. Next on the horizon for this enterprising company is to take the company public and seek a listing with the Singapore Exchange (SGX).

In recognition of their entrepreneurial success and the value that the company delivers to its customers, the founders of Rezt+Relax, John Foo and Wilson Teh, were presented with the Spirit of Enterprise Award 2023.

SUPER APP

To back our lifetime warranty promise, we've developed a user-friendly Super App. Homeowners who engage our services will get access to it, track their renovation progress, report defects, and receive prompt assistance from our skilled contractors. Even if a designer leaves, all information remains accessible, providing continuous support and peace of mind.

COMPLIMENTARY DEFECT INSPECTION

WORTH $500

A thorough inspection is necessary in order to check the integrity of the structure and condition of key areas in the house. This essential procedure guarantees that your house is completely safe for everyone and is move-in ready.

SUSTAINABILITY IN DESIGN AND CRAFTSMANSHIP

E0 Plywood, Low-Formaldehyde Glue & Paint for a Healthier Home

At **Rezt+Relax**, sustainability is built into every detail of our work.
We believe that beautiful design should never come at the expense of health or the environment. That's why all our carpentry works are crafted using **E0-grade plywood**, together with **low-formaldehyde glue and paint** — materials carefully selected to reduce harmful emissions and ensure cleaner indoor air quality.
This eco-conscious approach allows homeowners to enjoy interiors that are not only stylish and durable, but also safe and environmentally responsible.

Because true design excellence means creating homes that care — for you, your loved ones, and the planet.

THANK YOU

Justin Ang

"Everything about this house is so perfectly done — everyone who visits says, 'Wow, I've never seen anything like this.' Rezt & Relax delivered exactly what we envisioned, with beautiful design, lifetime warranty, and true peace of mind. Their transparency and after-sales support make all the difference — this is our dream home come to life."

Lingyi Xiong

"From the very beginning, Shuwen and George took the time to understand our lifestyle and what we wanted for our home. They didn't just create a beautiful design—they thoughtfully planned every space to make it practical and comfortable for everyday living. Throughout the renovation, they shared valuable ideas and suggestions that made the home even better than we had imagined. Looking back, choosing an experienced team like Rezt+Relax gave us complete confidence throughout the journey. Today, we have a home that's not only beautiful, but functional, timeless, and truly designed around the way we live."

Charlie Goh

"Our home underwent a complete revamp, and Rezt & Relax made the entire journey smooth and stress-free.
Cynthia and Greg were always on the ball — quick to solve any issue and patient in guiding us through every decision.
The result is a home that feels calm, cohesive, and truly us — soft curves, warm lighting, and a tranquil Japandi-meets-Wabi-Sabi touch. We moved in right on schedule, thanks to their professionalism. With lifetime warranty and their Super App for easy after-sales support, we have total peace of mind for years to come."

COMFORT AND LUXURY

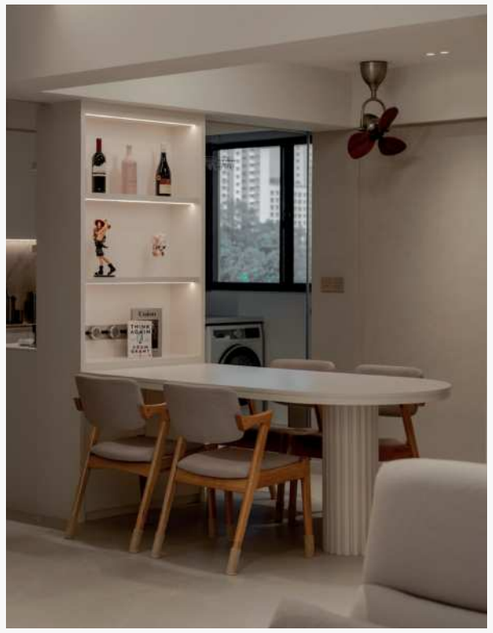

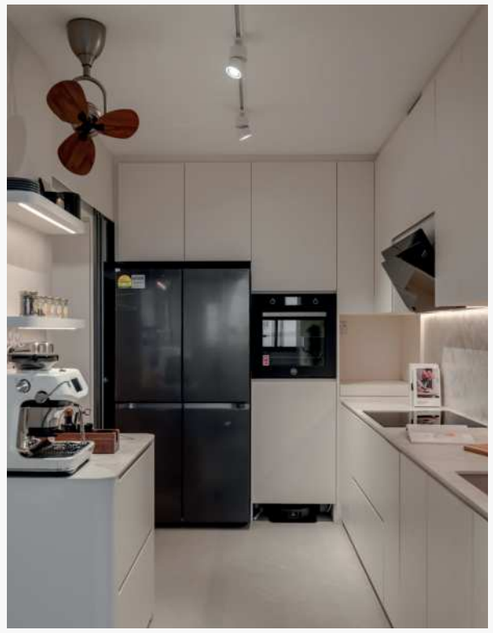

Elegance and comfort are seamlessly balanced in this design, creating a calm yet refined atmosphere. The functional layout ensures ease of use, while subtle textures and smooth transitions enrich the space. It offers a comfortable living environment without sacrificing aesthetics.

MINIMAL AND FUNCTIONAL

The **BTO 5RM** apartment is realized with a minimal design approach. Dominated by cream tones, the space is warmed by wooden accents, while clean lines and functional layout create an airy atmosphere.

Every detail is carefully considered, offering a balance of aesthetics and ease of use.

Functional
AESTHETICS

The **BTO 4RM** unit stands out with its cleverly planned layout despite its compact size. Functional storage solutions, fluid circulation, and multi-purpose zones ensure that every square meter is used efficiently.

A FRESH **IDENTITY**

Resale **HDB 4RM** offers a reimagined living space that prioritizes efficient use of area. Smart storage solutions, flexible multi-purpose zones, and fluid circulation ensure that every corner is utilized effectively.

LIGHT & IMPACTFUL

The Resale **HDB 2RM** adds warmth to the space with wooden accents, creating a calm and serene atmosphere. Its smart layout and functional solutions ensure the small area is used to its maximum potential.

Stylish &
PRACTICAL

The **BTO 5RM** apartment offers an elegant and functional living space. Each area is efficiently utilized, while carefully selected textures give the space a sophisticated character. Practical solutions create a balance that meets all the needs of modern living.

A MODERN TOUCH

LUXURY MEETS COMFORT

This home effortlessly combines elegance with practicality. Every detail is thoughtfully designed to serve a purpose while exuding sophistication. From functional layouts to refined finishes, the space offers a lifestyle that is both stylish and truly livable. Luxury is experienced, not just seen.

Aesthetic & HARMONIOUS

In this project, we focused on creating an aesthetic and harmonious living space. Colors, materials, and layout were selected to form a balanced whole, offering quiet sophistication without excess.

SUBTLE & BOLD

The project aims for a subtle and bold presence. Minimal details create a calm aesthetic, while materials and layout add a distinctive character. The result is an understated yet impactful atmosphere.

COMFORT AND LUXURY

Soft textures, high-quality materials, and meticulous details create an atmosphere that is both comfortable and sophisticated.

Fluid &
MINIMAL

In this project, we designed a fluid and minimal space. Minimal details and organized layout create an airy feel, while the use of soft lighting gives the area a calm and inviting atmosphere.

MINIMAL & **FUNCTIONAL**

The project creates a minimal and functional space where every corner is thoughtfully utilized. The layout maximizes openness, resulting in an airy yet intelligently organized environment that feels both spacious and practical.

NATURAL LIGHT, **TIMELESS CLARITY**

Illuminated by generous natural light, this space combines minimal design principles with functional elegance. A clean layout free from unnecessary details and a palette of neutral tones create an atmosphere that is both calm and spacious.

LANDED PROJECTS

Scan to view the full design

SUSTAINABILITY & COMFORT

The home has been stylishly renovated using sustainable materials, with the garage also updated to meet contemporary living needs. A holistic transformation that combines aesthetics and functionality throughout both indoor and outdoor spaces.

SLEEK **& GRANDEUR**

This project has been reimagined with a modern and stylish interior design, creating a **functional and aesthetically** pleasing living space. The pool and its surrounding areas have been planned with the same care, ensuring a cohesive and holistic experience throughout the home.

Innovation & STYLE

This project has been renovated with modern interior touches, gaining a unique identity of its own. Every detail combines function and aesthetics, giving the living space a contemporary style and a cohesive character.

A MODERN TOUCH

Rezt+Relax designed a modern and functional living space by using the area intelligently. Every detail was planned with both aesthetics and functionality in mind.

SEAMLESS & ERGONOMIC

The Cluster House project, designed by Rezt+Relax, brings together **sustainable materials and a modern design** approach. Natural textures and long-lasting solutions create a timeless living space.

BLOOMING **LUSH**

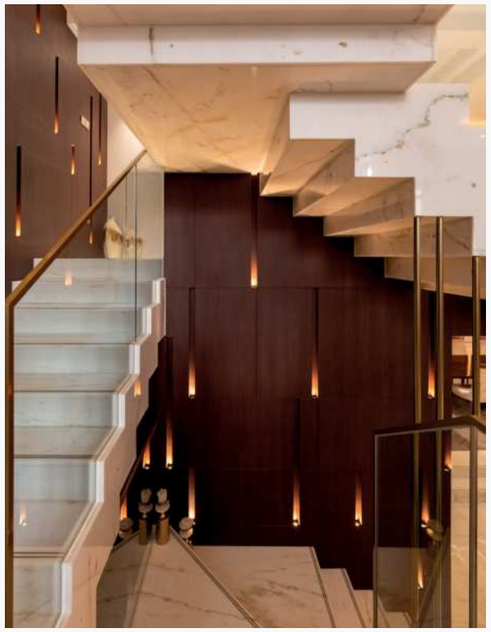

This contemporary corner terrace house seamlessly blends sophistication with simplicity, boasting a pristine white exterior that exudes modern elegance. Embracing a minimalist aesthetic, this home offers a tranquil retreat within the heart of modern design.

PRESTIGE & LUXURY

The Rebuild project is where prestigious living meets modern luxury.

Every space combines **comfort and sophisticated aesthetics** through carefully selected materials, elegant details, and a contemporary design approach.

Beauty of OPULENCE

The project aims to create an elegant and majestic atmosphere. The bedroom, with leather and gold details, combines style and comfort, while the modern industrial kitchen brings together functionality and aesthetics.

SPACIOUS & LUXURIOUS

With its high ceilings and spacious interiors, this project showcases how our design team redefines **luxury through the power of deliberate emptiness**. Shaped with simple yet striking details, the home combines openness and elegance in every room.
